Four other persons are involved in the charges. One of those is Ormiston. He is the object of a nation wide search and is supposed to be in the vicinity of Chicago. The others, not yet fully identified are named in John and Mary Doe warrants.

The witnesses who gave their stories of the Carmel cottage events today were Raiph Hersey, ex-city manager of Santa Barbara, Cal.; Percy W. Parkes, building contractor, and Mrs. Jeannette Parkes, his wife, of Carmel; Ernest A. Renker, truck driver, who delivered a load of wood to the cottage occupied in Carmel by the woman resembling Mrs. McPherson and Ormiston; Raiph Swanson, grocery clerk of King City, Cal., who delivered groceries to the woman of the Carmel cottage.

The witnesses were given roughshod cross-examinations by W. I. Gilbert, Mrs. McPherson's chief counsel. Gilbert became embroiled in several clashes with Deputy District Attorney E. J. Dennison, and with District Attorney Asa Keyes.

FLOOD WATERS COVER PART OF SKOKIE VALLEY

(Picture on back page.)

Rains of the last few days, coupsed with poor drainage facilities, have flooded a large area in the Skokle valley. Streets on the west side of Winnetka are covered with water several feet deep, many basments have been flooded and traffic on a portion of Hibbard road has been barred because of the danger to automobilists.

The weather bureau forecast last ight stated that cloudy skies would prevail today, with conditions becoming unsettled tomorrow, and that the temperature will rise, but slowly.

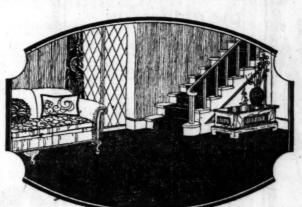

Included in the flooded section on the north shore are the athletic field of the Skokie intermediate school and stretches of the Tower and Dundee roads. The Skokie school was dis-missed yesterday afternoon when a flooded basement put the heating plant out of commission

New York, Sept. 27.—(P)—Charles Garland's gift of \$1,674,000 to the

American fund for public service has all been disposed of, and no new undertaking hereafter can be board, it was announced today. Garland's origamounted to \$901 .-555, but this was increased by \$650,700, due to the rise in value of the stock of

the First National bank of this CHARLES GARLAND city, which consti-

tuted half of the gift. The money was given for public service after Garland had inherited it from his father, but refused to accept it for personal use because he disap-proved of the manner in which his father had acquired it.

A total of \$829,000 was given away outright by the board in charge of the fund, it was announced today, while \$388,000 has been pledged to different causes. The remainder, \$457,000, is outstanding in loans. It was pointed out that it was Garland's wish to have the entire sum disposed of in a short

Did This Ever Happen to You?

Recently, after purchasing several hundred dollars worth of furniture from us, a young married couple casually mentioned that they had come to us only after they had shopped for many weary hours without finding what they wanted.

And even then they had come to us with little expectation of actually purchasing, but rather to inform themselves as to correct styles and values. They knew Colby's to be the home of distinctive, quality furniture, but they feared such fine furniture would be beyond their means.

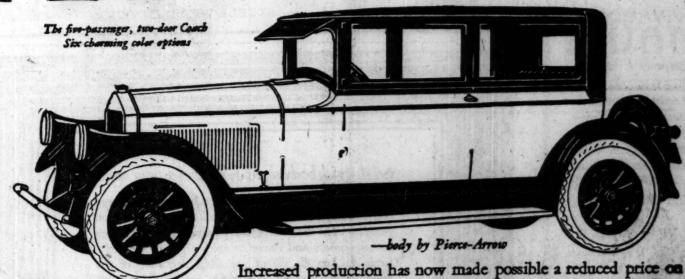

However, they not only found here the beautiful pieces they were seeking, but also made the pleasant discovery that they could well afford them. When leaving, they assured us that they would never forget the important truth they had just learned, that distinctive, quality furniture is NOT necessarily high priced.

constitution and law are violated on an unprecedented scale, with numerous consequent and attendant evils. Public opinion is divided, propagandists are furiously active and politicians seek to capitalize the issue for personal ends. The controversy shows bitterer day by day. We are in a state of confusion in which it is hard to see the light. Gov. THE BARGES MAKE GOOD.

The government operated barge lines are going a profit this year, according to a forecas made public by the war department at Washing-ten. The barges on the Mississippi have been makmoney almost since the service was begun, but Warrior river line to the Alabama iron disrict has always shown a heavy loss. In 1923 the on the two lines together approximated \$1,000,-000. Last year it was reduced to \$35,000. This year the profit, it is estimated, will be close to boards have failed to do for years.

The Mississippi line has justified itself fully. between New Orleans and St. Louis was so apparent that it has now been extended to No one who was familiar with the s factors expected the Warrior line to pay The traffic was overwhelmingly in one direction.

That difficulty was never encountered on the Mis-

ration to all who are fighting for develop ent of our waterways. It will encourage those raterway advocates in Illinois, who have long convinced that the service should be extended oris, to press their demand upon congress and our department. There is enough water in the Illinois river to carry the barges to Peoria, and there is every reason to believe that more than mough traffic can be developed in and out of the ninal to justify the government in handling it. Peoris taps a rich agricultural and manufacturing district, and until the waterway is extended to Chicago, Peoria will serve as the barge terminal for the metropolitan district. Peoria is linked to the surrounding country with hard roads and, in addition, is one of the strategic railroad centers of the United States. There is as much reason to expect that a line to Peoria would pay

It would be optimistic to classify this as the personal vagary of a megalomaniac. Unhappily It cannot be so considered. Patriotic megalomania is endemic in Europe and one of the most important contributions that could be made to the peace of that troubled continent would be its cure. The historic fallacy troubles the bosom of many peoples who need very urgently to think of their future rather than their past. Solemn claims and passionate propaganda are constantly being made on historic grounds that represent nothing real

But our chief interest in this dream of the late dictator is its implication of contempt for the league of nations. His proposed enterprise would be an even more conspicuous repudiation of the main provisions of the covenant than Italian imperialism has been guilty of. Plainly the league will have to make its terrors seem more real to aspiring politicians, especially in the Balkans.

Probably at no time in the last one hundred years have men and women worn so few clothes and exposed so much of the skin to the light. Never has there been such a swimming vogue, and that embraces exposure on the beach as well as time spent in the water. So far as the texture of the skin is

concerned, perhaps the losses have women with weatherbeaten skins variety of skin cancer which is almost peculiar to them. The prolonged action of snow and water, of sun and wind, not

Sensational

"On the basis of the estimated yield of gasoline by straight distillation in 1925, it would have required approximately 287,000,000 barrels, additional, of crude oil to furnish the gasoline made by cracking processes.'

This quotation from a circular published by the U. S. Bureau of Mines, indicates the extent of the service rendered by the Standard Oil Company (Indiana) in discovering and developing commercially successful processes for cracking gasoline.

The widespread use of the cracking processes, effecting a saving of 287,000,000 barrels of crude in 1925, is largely the result of the action of the Standard Oil Company (Indiana) in leasing its processes to competitors.

The Standard Oil Company (Indiana) did not maintain a monopoly of the processes it discovered, because unwavering loyalty to the people of the Middle West and an unfaltering integrity of purpose in serving them, prohibited such a course.

Ultimately, it is the people who benefit from the widespread use of cracking processes.

Without the widespread leasing of these processes, the motorists of the country would have been forced to shoulder the cost of "bringing in" 287,-000,000 additional barrels of crude oil, or of going without the use of their cars.

Moreover, it is extremely doubtful if 287,000,000 additional barrels of crude oil could have been produced in 1925, regardless of the money expended to discover it.

The importance of the process for producing gasoline by cracking in conserving an essential natural resource of the nation cannot be estimated.

Its importance to the future of oil conservation is suggested by the Bureau of Mines' circular which says: "There is probably no one factor that is more important with regard to a future supply of motor fuel than a more extended use of the cracking process in the refineries of the country."

The conservation of 287,000,000 barrels of crude resulting, directly and indirectly, from scientific work in the research laboratories of the Standard Oil Company (Indiana) is a sensational saving.

Yet it is but one far-reaching result of the quiet, unpretentious work that is going on every day in the laboratories of this Company. It is but one of the fruits of steady, untiring labor and persistent

This sensational economy was made possible by the ordinary, every-day integrity that governs the Standard Oil Company (Indiana) in all its activities—an integrity that has made the name of the Standard Oil Company (Indiana) a gnarantee of dependability.

The reputation of the Standard Oil Company (Indiana) is due to no sudden or spectacular effort. It has been built slowly and solidly by the simple process of hard work, animated by the desire to serve the thirty million people of the Middle West sincerely and efficiently.

Gentlemen:
Our Pascoe Oil Burner was installed in the fall of 1924 and we are quite well pleased with it. We appreciate the uniform heat and freedom from the labor of Bindling coal and ashes. In our 2-apartment building we have burned the following: Winter of 1923-24, 22 tons hard coal, \$376.00; winter of 1924-25, 3,187 gallons fuel oil, \$240.04. You can see from these figures that we made a considerable saving over the cost of coal.

Because the Pascoe is safe. It operates on a mechanical principle that is time-tested and de-pendable. The oil is atomized mechanically, then delivered to the fire pot under low pressure where it is ignited and burned thoroughly and completely. There is no leaking, dripping oil. The Pascoe is also protected by automatic oil and electricity shut-offs that are positive and certain in action. Should any of these factors fall, the burner stops and no more oil can flow. no more oil can flow.

Because the Pascoe is simple in construction. There are only two moving parts. There are no delicate or complicated devices to get out of order. In fact the Pascoe is so simple and needs so little attention that anyone soon becomes familar with its operation. The controls are simplified. They operate with a certainty that gives you confidence and freedom from worry about your heating plant. The only attention the Pascoe requires is an occasional oiling and inspection such as any piece of machinery should have.

Because the Pascoe is more economical than most oil burners. It uses low priced fuel oils which it atomizes so finely that there is complete combus-tion of every oil particle. The fiame is intensely hot and swirls around in the fire pot so that all surfaces are heated evenly. As a result of this perfect combustion your house is warmed quickly and completely.

Because the Pascoe is quickly and easily installed. The work is done in a surprisingly short time without making any alterations in your heating plant. The grates are not even removed.

How Acidophilus Milk Prolongs Life and Sustains Youth

The tiny Acidophilus plants, grown in milk, possess the surprising power to displace the germs that cause food decay in the digestive tract.

These microscopic plants thus successfully combat a most persistent source of internal poisoning. The countless germs that cause food decay cannot exist where Acidophilus holds the upper hand.

Taken consistently, Acidophilus Milk will remove that putrefaction which was formerly absorbed into the blood for transportation to every cell of the body. It will thus cleanse the system of the poisons that destroy muscle, nerve, and tissue.

Ideal conditions for the growth of the tiny Acidophilus plants are found in certified milk, which, when cultivated with these plants, forms a delightful health drink.

The value of the Acidophilus plant as a fearless enemy of internal poisoning has not long been known to man. Only in recent years has modern science succeeded in isolating it, making possible its individual growth and cultivation.

The optimist says you are as young as you think, but it is difficult to stay young in mind when the body is fast growing old through fatigue that should not exist.

Those deep lines ("crow feet") that mark mental strain—that haggard look of the eyes—tense muscles-hours of sleep but without rest . . . those are the tell-tale signs of dying youth!

Why deprive yourself of the utmost in health and happiness when science has given to the world this pleasant way to prolong those priceless treasures?

Multiple Reputation Nu-way engineers went to authoritative sources for the special accessories on the Nu-way Oil imple Burner. When you buy a Nu-way you buy a burner with multiple reputation. Honeywell Heating Specialty Company of Wabash, Indiana, make the automatic controls. The ignition coil—the one that insures a blaze in the firepot before the oil enters, is a product of Webster Electric Company, Racine, Wisconsin. The motor is the famous wool packed sleeve type motor of Emerson Electric Company of St. Louis - a motor quieter than a ball bearing motor and one that will run your burner 3,000 hours and insures ample lubrication in that length of time. Stromberg of carburetor fame makes the fuel feed device and the blower is the Sirocco type specially designed and made for Nu-way by the American Blower Company of Detroit. DITE asting

The Nu-way is the simplest burner that burns oil in accordance with the four fundamental laws governing the perfect compustion of oil. This simplicity in construction is an assurance of long life. There are but few moving parts to wear out, there are no places where weak-

nesses can develop under long use. Againthis simplicity of Nu-way makes its automatic operation more dependable. Attention is reduced to the minimum. Nu-way's sureness in satisfactory operation is a big factor in their popularity with home owners who buy them and with the dealers who sell them and assume responsibility for their satisfactory performance. That burner is best that gives even, comfortable heat with the minimum attention from both home owner and service man. Look for simplicity. You will find it in Nu-way.

A Size for You

There are four sizes of Nu-ways-adapted to heating any building from a five-room bungalow to a fifty-apartment structure without sacrifice of efficiency. No need to have twelve-room capacity in a five-room house. No need to try to force a twenty-room house burner to heat a big garage or a fair-sized apartment building.

In addition to these sizes there is another feature that makes for proper capacity. When your Nu-way is installed the fire control is set so that oil cannot be introduced into your furnace faster than it will burn perfectly. No chance is given an inexperienced person to open the valve too far and thus waste fuel for you.

Timed Ignition

There is but one method—the method adopted by Nu-way-of insuring correct lighting of oil. A flame must be blazing and waiting for the flow of air and atomized oil. This happens in perfectly timed sequence in Nu-way. When the thermostat starts the burner, the ignition system turns on a few seconds ahead of the burner itself. This prevents the annoyance of "back fire." There can be no accumulation of unburned atomized oil in your furnace.

Other Protections

In the smoke pipe there is a combustion device that, should anything interfere with the fire in the heating plant, will shut off the burner at once. Also there is another device that makes it impossible for oil, because of any reason about the burner, to flow upon the basement floor.

Listed as Standard by Underwriters' Laboratories

Nu-way passed the tests imposed by Under-

writers' Laboratories, which are maintained by the National Board of Fire Underwriters. Many burners have not yet been passed. Restrict your selection only to those that have been listed as standard by Underwriters' Laboratories.

In the Nu-way plant every Nu-way is subjected to operating tests under conditions similar to those in your home. Every Nu-way must be a successfully running burner if it is to leave our

Hazel Dell Brown, interior decorator, has helped women in every state in the Union toward prettier homes. Her color schemes, based on pattern floors of Armstrong's Linoleum, are eagerly sought and prized.

Now she has written her simple, practical plans for home-planners in a short, twenty-four-page book. "The Attractive Home—How to Plan Its Decoration" is richly illustrated in full colors.

It shows a model living-room, bedroom, sun porch and entrance hall. Photographs of rooms decorated according to her ideas are given. Her color suggestions go into woodwork, walls, and draperies as well as floors. A copy containing colorplates of the newer linoleum patterns will be sent to any reader of this newspaper. (Downtown)

LECTURES

Informal and Non-Technical Discussions By Recognized Authorities

"TO provide instruction for those who cannot attend in its" classrooms is a legitimate and necessary part of the work of every university. . . . This work, while it must be in a good sense popular, must also be systematic in form and scientific in spirit; and to be such it must be done under the direction of a university by men who have had scientific training."-William Rainey Harper

The Public Lectures listed in this announcement represent a continuation of the service proposed by President Harper at the time the University of Chicago was organized, and are in addition to the credit courses offered by University College. Other series are planned for the winter and spring months. Write for the later announcements which will be ready for mailing in December and March.

"AFTER I bought this Rolls-Royce," said a man who had shopped around among several makes of ordinary cars, "my desire for change was completely quenched by the all-satisfying versa-tility of my Rolls-Royce."

Owning a Rolls-Royce is not only an investment in unsurpassed per-formance, comfort and long life, but—

What would be considered a journey in any other car, say a 100-mile trip to visit some friends, is as free from fatigue in a Rolls-Royce as a jaunt to the next suburb in an ordinary car.

To touring comfort, add absolute afety at all times. The magnificent prings, axles, steering apparatus and rakes have never been known to fail

WORLD-WIDE sales of quality cars and trucks

General Motors cars and trucks are sold and serviced in 104 countries. The export shipments in 1925 amounted to 119,632 motor vehicles; and the overseas assembly plants and warehouses of General Motors now number 19. This vigorous development of the world-wide market for a complete line of quality cars is important to the car buyer. It is not only a contribution to international prosperity and progress, but it also helps to maintain the continuous production program at the factories, on which low prices depend.

Skinny Men and Women Gain 5 Pound in 30 Days or Money Back

My Dear Friends:

After my attack of Flu I was thin, runcown and weak. I had a sallow complexion, my cheeks were sunk in, and I was continually troubled with gas on my stomach. I felt stuffy and had lost my appetite. I had read about McCoy's Cod Liver Oil Compound Tablets and decided to give them a frial. At once I began to pick up an appetite, my cheeks filled out, and my complexion became healthy looking, and I gained IS pounds in six weeks, and am very thankful for what McCoy's Cod Liver Oil Compound Tablets did for me.

Miss Alberta Rogers, 264 W. Cerro Gorda St., Decatur, Ill.

To take on weight, grow strong and vigorous, to fill out the hollows in cheeks and neck, try McCoy's Cod Liver Oil Compound Tablets for 30 days. 60 tablets—60 cents—at live druggists' everywhere. If they don't give you wonderful help in 30 days, get your money back—you be the judge. But be sure and sak for McCoy's Lab., New York City.

EVERYBODY is enthusiastic over this new offer—announced for the first time yesterday. The Chicago Tribune will pay Thousands of Dollars in Cash Prizes-merely for suggesting Screenlines to scenes taken from popular motion pictures. So easy to do! Everybody is trying it. Men, women, boys, girls-no matter where they live-can compete. It costs nothing to try. Big cash prizes every day for the best Screenlines suggested. You can write one for Picture No. 2, shown above. Here are a few samples:

"Handing out the dirt," "A hard man to trim."

Can you suggest any other good Screenlines for this picture?

Follow These Simple Rules:

- 1. Each day excepting Sundays, until further notice, The Chicago Tribune will print a scene from some well-known motion picture. The public is invited to submit Screenlines—Titles—for these pictures.

 Each day The Chicago Tribune will accept and publish the 5 best Screenlines submitted. For these winning suggestions The Chicago Tribune will pay \$100.00 in cash as follows: 1st Prize, \$50.00; 2nd Prize, \$25.00; 3rd and 4th Prizes, \$10.00 Each; 5th Prize, \$5.00; a total of \$100.00 each day.
- This offer is open to every man, woman, boy and girl excepting employes of The Chicago Tribune and their families. It costs nothing. It does not matter where
- you live. 3. You may submit as many Screenlines for each picture as you wish. You may use the form printed in The Chicago Tribune each day or a separate sheet of paper. If separate sheet of paper is used be sure to mark the number of the picture on entry.
- 4. It is not necessary to have seen the motion picture to write a Screenline. Clues will be published under each picture printed in The Chicago Tribune. These clues will tell you the name of the picture, the principal characters and the action. Consequently, you may write your Screenline without actually having seen the motion picture.
- Screenlines must be 10 words or less. Try to make your suggestions clever. There are no restrictions as to kind of Screenline. of Screenline.
 Study carefully the picture published each day in The Chicago Tribune. Then write your Screenline along the following lines:

 1. Try to tell the meaning of the picture.

 2. Try to tell what you think the principal characters are saying.
- are saying.

 3. Try to think of a general descriptive Screenline such as you would like to see in the movies.

 Screenlines must be in the Office of The Chicago Tribune within 4 days after the picture is published. For example, answers to today's Picture No. 2 published above must be in the Office of The Chicago Tribune not later than next Saturday.

- Suggestions should be mailed to "Screenlines," The Chicago Tribune, Post Office Box 1539, Chicago, Ill. Neatness will count.
- 8. You need not buy The Tribune to compete. It a examined at Public Libraries or at The Tribune free of charge.
- 9. The winning Screenlines will be announced in The Chicago Daily Tribune exactly one week from the day the picture is published. Winning Screenlines for today's picture will be announced in next Tuesday's Tribune 10. In selecting winners The Chicago Tribune will be the sole judge and its decision will be final. In the event of ties duplicate prizes will be paid.

Cash Prizes Every Day!

Note that 5 Cash Prizes are awarded Every Day! You don't have to hold the pictures till the end of the contest and wait months to find out who won. You can start with Picture No. 2 shown above. Simply suggest a Screenline in 10 words or less and send it in! That's all! The clues given beneath the picture will help you. It's easy! Anyone can do it!

Send In Your Screenlines At Once!

Don't hold your Screenlines till a later date. Remember, each day's picture is a separate effer! Think of one right now for Picture No. 2 and send it in at once. Write as many Screenlines as you wish. Send them to "Screenlines," The Chicago Tribune, Post Office Box 1539, Chicago, Ill. The winners for today's pictures will be printed in The Chicago Daily Tribune one week from today! Remember a new picture will be published in The Tribune tomorrow—another one the day after — and so on each day. And \$100.00 in cash will be paid every day for the best Screenlines for each Picture!

Make your floors pay dividends! Banish the nerve-racking noise of moving feet and chairs by installing sounddeadening floors of Blabon's Linoleum. These floors are resilient, too! That makes them comfortable to walk and stand upon. Moreover, the soft color tones of Blabon floors are restful to the eyes.

All these factors contribute to better work from employes, and give an office, store or shop that smart, up-to-date appearance which indicates a progressive business.

Blabon floors of Plain or Inlaid Linoleum are tough and wear-resisting. They are easy to clean, and never need expensive refinishing. That makes them economical to maintain.

The modern method of cementing linoleum down over builders' deadening felt insures watertight seams which are practically invisible, and adds much to the beauty and permanency of a Blabon floor.

A Telephone is the Only Equipment

THOUSANDS USE

to Improve their Home Heating Methods

In seeking a cleaner, easier and more uniform method of heating their homes, some house holdershunt up and install all kinds of devices and heating equipment, regardless of the increased cost.

They overlook the fact that fuel rather than equipment is the important factor in home heating.

The telephone is the only equipment thousands use to make sure of satisfactory results from their heating plants—hot water boilers, hot air furnaces, or stoves.

Your telephone connects you with the manufacturer of Chicago Solvay Coke who maintains a corps of skilled fuel and furnace men familiar with all types of home heating plants. Your telephone connects you with three hundred established fuel dealers who sell and recommend Chicago Solvay Coke.

Careful buyers insure uniform satisfaction by using the full name Chicago Solvay Coke and they see that delivery tickets read Chicago Solvay Coke. Then no mistake can occur.

On fine days you should fill your bins with Chicago Solvay Coke. No traffic delays now. No flood of rush orders. Phone your order today to one of our 300 established dealers.

Any one of these dealers will gladly arrange to have a Service Man call at your convenience. No charge for this service.

This Is What The Service Man Will Do

This Service Man will thoroughly inspect your heating plant, and recommend the fuel best suited to provide you with heating comfort at the lowest cost. He will tell you the size of Chicago Solvay Coke that has been prepared to give you the most satisfactory results in your heating plant.

Then, when you are ready to start the fire, he will return and make sure you are burning Chicago Solvay Coke most efficiently and economically.

Burn Chicago Solvay Coke and your home will be evenly heated because Chicago Solvay Coke is a manufactured fuel in which quality has been maintained at a uniform high standard for twenty-one years.

Chicago Solvay Coke is higher in heat producing efficiency than hard coal and will save you more than 25% of your fuel cost.

Your home will be cleaner and re-decorating expense less because Chicago Solvay Coke is clean, burns without smoke and soot, and leaves few ashes to handle.

Order Chicago Solvay Coke by full name. Un-named cokes often are poorly prepared and cause dissatisfaction. Remember that back of Chicago Solvay Coke is a large plant right here in Chicago—three hundred established dealers—a corps of Service Men and thousands of satisfied householders.

No wonder that for thousands Chicago Solvay Coke has been for years the dependable fuel for heating their homes.

Call your fuel dealer, or telephone us direct—Harrison 3580—and say when a Service Man may call.

[Chicago Tribune Press Service.] Philadelphia, Pa., Sept. 27.—Glenna Collett today began the defense of her national woman's golf championship in the same manner that Bobby Jones and Walter Hagen began their efforts to repeat. She clipped par two strokes, turning in a card of 43—38—81 to top the medal round, which was played over the east course of the Merion

BY BOB BECKER.

Riding in with the touch of winter weather that struck the northern Illinois lake region a few days ago, thousands of migrating birds are drifting through the countryside on the way to their favorite resorts. It winter many miles to the north of us to send down the thrushes, warblers and many other species to decorate our autumn landscapes. The sumac has doffed its green for

scarlet and orange; purple asters and goldenrod line the roads, blackbirds in flocks of hundreds sweep across the grain fields in the beautiful lake regions and now come the migrating birds to emphasize the fact that autumn has arrived.

One of the most interesting migrants was the black and white warbler who is on his way to South America. Series Opener This bird, a symphony in black and white, has been cruising up and down white, has been cruising up and down tree trunks with enthusiasm during the harvest of insects, for his sharp bill is running large.

The juncoes, modestly dressed fel-

lows of slaty gray and low cut vest of white, will remain with us all winter, although practically all the other song birds that have come down from the north are scheduled to travel on to warmer climes.

THE DAVIS STORE-SECOND FLOOR-NORTH.

To describe the costly extra process which lifts Luckies out of the ordinary would take a volume of technical description.

But you can get the results instantly because in a Lucky Strike you'll find the finest Turkish and domestic tobaccos properly aged, perfectly blended -and something more.

You'll realize that there is something about them which gives them dis-

All because of an extra process—toasting.

When you smoke Luckies, you'll find:

1. Finer Flavor. Toasting for 45 minutes develops the hidden flavors of the world's finest Turkish and domestic tobaccos.

2. Smoothness. Toasting for 45 minutes removes all "bite" and harshness, hence never any throat irritation.

3. Freshness. Then the tobacco is suddenly chilled. This seals the flavor in and insures constant freshness.

Thus the toasting process is an addition. It adds a unique and distinct improvement to a cigarette that has already been made from the finest Turkish and domestic tobacco. It is the reason millions prefer Lucky Strikes.

It's toasted

TERMINAL HYGIENE 000

TERMINAL hygiene simply means taking every possible precaution to safeguard you from the dangers of infection. From the moment you sit in the chair and the barber washes his hands with germicidal soap until you get out of the chair after your hair has been brushed with a freshly sterilized individual brush and comb, each operation has been surrounded with the elaborate precautions of Terminal Hygiene.

WALL STREET NOTES

NEW YORK, Sept. 27-(P) Backing and

The Wall Street of the South

One of New York's leading financiers once termed New Orleans' financial district "the Wall Street of the South."

Here, in the very center of Southern financial activity, stands the CANAL BANK-a bulwark of security; a living symbol of conservative progress. If your domestic trade turns southward, if your export department is expanding its activities, your

primary need is an adequate banking connection in the "port of the Valley to the World." Since 1831, this Bank has constructively served the financial needs of New Orleans and the Nation. The CANAL offers nearly a century of accumulated

experience in counseling commercial enterprises. "Through Ninety-Five Years," an interesting booklet on the South's industrial development, will gladly be mailed executives on request.

THIS BOOK SHOWS THE WAY

TOO often families spend patient years in saving, and then, becoming impatient at their progress, lose all the money they have saved by one unwise speculation.

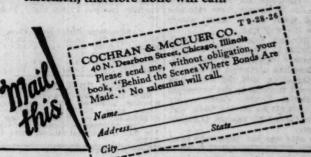

You need not become impatient with your progress, when you can know that financial independence awaits you at he end of fifteen well planned years. You need not worry about your future—you need not worry about the safety of your money or the income it will bring to you—if you know the secret of saving which is made clear in this book.

This plan works just as surely whether you are now earning \$1,000 or \$100,000 a year. It is so simple, anyone can understand it—so definite, anyone can follow it—so certain, no one can fail.

Every member of every family old enough to spend or earn money, should read this book.

LISTED ON CHICAGO STOCK EXCHANGE

The following information has been summarized by Mr. V. L. Alward, President of the Corporation, from

BUSINESS: The American Furniture Mart Building Corporation has since June 1, 1924 owned and successfully operated the present property as the largest furniture mart and show room building in the world. The land, consisting of an entire block in the City of Chicago and fronting on Lake Michigan, is owned in fee simple and is located in one of the most rapidly developing parts of Chicago. The enterprise is a demonstrated commercial success and its utility both to furniture manufacturers and retailers, in effecting economies through the centralization of selling and buying activities, may be gauged by the fact that the existing building is 100% rented under long term leases, over 70% of which, in amount of annual rental, expire subsequently to 1932, and further by the fact that applications received for additional space are very considerably in excess of the space which will be available upon completion of an addition now under construction. This addition, which is expected to be ready for occupancy by June 1, 1927, will increase the rentable floor area by approximately 27%. The building, with the addition completed, will be the largest commercial structure in the world.

VALUATION: Mr. Albert H. Wetten appraises the entire property, with addition completed, at a valuation in excess PURPOSE OF ISSUE: The proceeds of this issue will be used for the completion of the addition to the building.

Steel work is set to the 16th floor and it is expected construction of the addition will be

completed by June 1, 1927. EARNINGS: The earnings of the Corporation from the present building for the 12 months ended December 31, 1925, as certified to by Messrs. Arthur Andersen & Company, Public Accountants, were as follows:

The estimated annual net earnings of the Corporation, available for Dividends, Federal Taxes, etc., after Operating enses, Maintenance, Insurance, Bond Interest, and Taxes at present rates (excluding Federal Taxes), but before reciation, as follows:

Seven per cent dividends on all the Company's outstanding Preferred Stock have been earned and paid regularly

GENERAL: In the furniture industry, distribution cannot very well be accomplished by methods commonly employed in many other industries. Samples cannot easily be carried by salesmen and selling by specifications or photographs is difficult and unsatisfactory where quality, design, finish and workmanship are as varied and important, as in the case of furniture. These inherent conditions gave rise many years ago to the practice of holding semi-annual "markets" in the leading furniture centers of the United States, among which Chicago is generally recognized as the most important exhibition center. Out of these conditions and practices grew the conception of the American Furniture Mart Building, which now houses the exhibits of over 700 furniture manufacturers. On the Board of Directors and among the Corporation's larger stockholders are representatives of many of the largest furniture manufacturing integests in the United States.

BUSINESS: Stanley-Crandall Company of Washington, a Delaware Corporation, was incorporated in 1925 to acquire and operate the chain of nine motion picture houses in Washington, D. C., known as "The Crandall Theatres." Through acquisitions and through construction, to be completed with part of the proceeds of the sale of these bonds, the number of theatres operated will be increased to sixteen, located as follows: Washington, D. C. (11), Chevy Chase, D. C. (1), Baltimore, Md. (2), Frederick, Md. (1), and Martinsburg, W. Va. (1).

PROPERTY: All of these properties will be owned in fee. On the sites recently purchased (one in Baltimore, Md., and one in Frederick, Md.) modern theatres of capacity suitable to their respective locations will

security: The Trustee will have as security for these bonds: a closed first mortgage on fifteen parcels of land and the improvements thereon. During construction of the two theatres at Baltimore, Md., and Frederick, Md., the Trustee will hold for disbursement under the provisions of the mortgage, the proceeds of the sale of the bonds designated for that purpose, together with a satisfactory bond of completion. The Chevy Chase Theatre, the remaining property not covered by this mortgage, is subject to mortgage indebtedness of \$170,000.

These properties have been examined and appraised by Mr. J. Willison Smith, of Philadelphia, Messrs. Weaver Bros. & Co., and Mr. H. E. Doyle, of Washington, D. C.

Mr. J. Willison Smith appraises the ground value at \$2,716,246.50 and the value of the improvements, after completion of the proposed two new theatres, at \$4,441,405.65, a total of \$7,157,652.15. This is the lowest of the three appraisals. Policies of title insurance are to be issued by The Real Estate Title Insurance Company, The Columbia Title Insurance Company, both of Washington, D. C., and Title Guarantee & Trust Company of Baltimore. Title of the Appollo Theatre at Martinsburg, W. Va., has been approved by counsel. SECURITY: The Trustee will have as security for these bonds: a closed first mortgage on fifteen

has been approved by counsel.

GUARANTEE: As additional security, Stanley Company of America unconditionally guarantees the prompt payment of the principal and interest of these bonds by endorsement on each bond. The present market value of the outstanding capital stock of Stanley Company of America is in excess of \$45,000,000.

EARNINGS: Current annual earnings of Stanley-Crandall Company of Washington are in excess of one and one-half times the interest charges on these bonds. Earnings of Stanley Company of America, as certified to by Messrs. Edward P. Moxey & Co., available for the guarantee of these bonds, were:

1923 \$970,833.24

These earnings do not include any revenue from interests in the major properties recently acquired or from certain substantial expenditures made by the parent company and its subsidiaries. No additional guarantees of securities are now contemplated by Stanley Company of America. SINKING FUND: Provision has been made for an annual Sinking Fund, beginning in 1929, sufficient to retire \$150,000 per value of these bonds each year. The operation of this Sinking Fund should retire

more than 50% of the issue by maturity.

RELEASE OF PROPERTY: The mortgage makes provision for release of property by the Trustee under careful restrictions designed to protect the equity of the bondholder at all times. PURPOSE OF ISSUE: The proceeds of the sale of these bonds will be used: for satisfaction of existing liens; for construction; for acquisition of property; and for general corporate purposes.

MANAGEMENT: Stanley Company of America, one of the principal companies engaged in the exhibition of motion pictures on the Atlantic Seaboard, owns a large majority of the preferred stock and 75% poration are under the management of the former Crandall chain, supplemented by the executives of Stanley Company of America.

U. S. TREASURY STATEMENT

Cost Hopes Versus. Cost Facts

Salesmen usually think selling prices are too high. Treasurers think them too low. The trouble with a good many businesses, however, is that too many people are thinking about prices and too few about costs.

Thinking about costs cannot be done with one eye on the market and the other on net profits. It must be done with both eyes sharp on the facts of production. Only when those are seen clearly, can adjustments be made in favor of the net profits, or concessions to the market.

Of these cost facts few are more important than the fixed capital expenditures. "The effects of a wise or unwise policy in the handling of the fixed capital expenditures are permanent, far reaching, and frequently the determining factor in success or failure for the company." So states an eminent accounting authority.

The verification and adjustment of fixed asset accounts, accounting practices in regard to betterments, renewals, and additions, the adequacy of depreciation charges -all of these major factors are more safely provided for through proper appraisal service.

RAILROADS SEEK

TO GET PUBLIC

IN PARTNERSHIP

BY HARPER LEECH

All of a sudden railway publicies have begun to talk of increased dividends and to hope that the payment of such will make it possible again way plant through sales of stock.

Let's hope that such talk is not oversanguine. If the American people really want faster and cheaper transportation, they will probably have to spend from \$40,000 to \$250,000 and up per mile on some 50,000 miles of heavy traffic railway line to get it.

By tearing up existing tracks and junking \$37,000 worth of equipment per mile, replacing that with permanent concrete roaded and rails fixed in slabs, speed and loads may be vastly increased and the savings will pay the cost of the important of the savings will pay the cost of the important of the savings will pay the cost of the important of the savings will pay the cost of the important of the savings will pay the cost of the important of the savings will pay the cost of the important of the savings will pay the cost of the important of the savings will pay the cost of the important of the savings will pay the cost of the important of the savings will pay the cost of the important of the savings will pay the cost of the important of the savings will pay the cost of the important of the savings will pay the cost of the important of the savings will pay the cost of the important of the savings will pay the cost of the important of the savings will pay the cost of the important of the savings will pay the cost of the important of the savings will pay the cost of the important of the savings will pay the cost of the important of the savings will pay the cost of the important of the savings will pay the cost of the important of the savings will pay the cost of the important of the savings will pay the cost of the important of the savings will pay the cost of the important of the savings will pay the cost of the important of the savings will pay the cost of the important of the savings will pay the cost of the important of the sav

On a line handling as much as 20,000 tons each way per day it has been estimated by competent engineers that it to spend \$120,000 per mile to reduce grades from 1 per rent to .4 of one per cent. Each tenth of a per cent of grade eliminated is equivalent to shortening a time and operations. Relocation of line as startling as reduction of grades.

CUSTOMER, whose invested A estate consisted largely of Electric Light and Power Company securities purchased from this house, needed several thou-sand dollars quickly.

He found he could readily sell these securities through this company. But, as his was only a temporary need, we suggested that he consult his banker. He easily arranged a loan, depositing the securities as collateral. The emergency passed and he redeemed his securities by paying the loan.

Two important advantages of the high grade Public Utility securities in which we specialize are their marketability and their acceptibility as collateral. These features, combined with the high degree of safety they afford and a satisfactory yield, make them very attractive to conservative

If it's foods you want to put in Northern Ohio homes —

The Plain Dealer's Annual Home Makers School Starts October 13 in Cleveland's Huge Public Auditorium

-where the last Republican National Convention was held. It will last three days and thousands of women from all sections of this great market will attend each of the four sessions.

Remember-the Northern Ohio market is the Plain Dealer's market - prosperous - compact - easily and economically covered by this one newspaper alone,

then like the Salmon Packers and dozens of others you can do it with the Plain Dealer ALONE

A YEAR ago pink salmon didn't have a chance in Northern Ohio. This was a red salmon market—one of the country's best.

Then the Associated Salmon Packers began to advertise. From their headquarters in Seattle, they chose a great list of leading dailies to promote pink salmon sales.

Every advertisement since the start has carried a coupon. Every paper that remained on the schedule has held its place on the basis of direct, traceable returns.

Week after week the Associated Salmon Packers are using the Plain Dealer-alone-in Northern Ohio. And this great 3,000,000 market is one of the three or four leaders in returns. The cost per inquiry from the Plain Dealer is among the lowest of all newspapers used. Northern Ohio has been sold on pink salmon in one short year through the Plain Dealer ALONE!

Look over the schedules of Fleischmann's Yeast, Fould's Macaroni, Hires' Extracts, Tao Tea, White Rock and many and many another acknowledged advertising success and you'll find it's the Plain Dealer alone in Northern Ohio.

By putting scores of products on grocers' shelves-by moving great quantities of these selfsame products into Northern Ohio homes—the Plain Dealer has definitely proved itself the most powerful food medium between New York and Chicago.

Here in Northern Ohio your advertising concentrated in the Plain Dealer will do the job far more effectively and far more economically than if you split your appropriation among two or more newspapers.

> If further facts will help you in making your plans, wire, write or phone for a Plain Dealer representative to come to your office.

BLACK BUTTERFLIES

Derinds Maxwell, the wealthlest young woman in Grandon, brings upon herself the al onliaws. Her attorney, Orson Hatch, remonstrates with her and advises her to take saperon. Dorinda tells him that she will not give up the freedom that was denie ing her father's lifetime.

Batch sends David Goddard, his clerk, out to Dorinda's house with some papers tha require her signature and the helress is impressed by the young law student.

Derinds is worried by the gossip about herself and calls on Norma Davis, an old friend with the hope of keeping their friendship alive.

INSTALLMENT IX. NORMA IS BAFFLED

Dorinda bent forward and touched Norma's hand, resting on the broad irm of the big easy chair in which her hostess sat. Norma looked so comtotable sitting there—so settled, so assured. For just a moment insight given the guest to realize what this other girl stood for, and she herself had the lonely feeling of a homeless child watching through a window another child's home life. "That's why I'm answering the same questions I've answered so often lately. For I have tried to make people understand-I have. But they never can, some way. Probably it's because the Grandon people never knew me and never wanted to. They don't really want to now. They despised father, and they haven't any faith in his daughsr. I suppose they'd crook a finger at me sooner or later, when they got resty to. They would think it was their duty. But they've waited too long. I don't need them now."

"Try again—to explain, I mean," Norma urged, ignoring the latter part

"In one way it is. But you see, Dorinda-don't go off the handle, will but is the result of the chicanery of ou?-the point is that you've selected such awful friends. Surely you don't a brother officer, who, loving the girl like drunkenness and vulgarity—and yet—

Dorinda reflected. "I suppose it is hard for people to understand," she said at last, "that is not known until nineteen or twenty don't like Kitty and Chad and Jim because they drink. I like them in spite years later. system to the drinking just as one shuts them to other faults in other friends. I think I see all three of them as they are. Chad has the sweetest nature. I've ever known, though he looks like a faun and is one at heart. He's gay, generous, sympathetic, understanding, and, though perhaps you won't believe it, he's clean minded. He's also weak and irresponsible and lazy, and he drinks too much. I'm hoping he'll get over his worst faults."

By that time the girl-Eleanour—is the widow of the man who did the heroe wrong, and has a daughter who looks and acts a lot like herself. Through the daughter, Capel Maturin, who for nineteen years has been worst faults."

"He won't if you let him fill himself up at your house all day and all night." Norma pointed out with sudden austerity.

"That was a nasty one, but I deserve it." Dorinda admitted. "It's a problem. He knows father had a 'cellar,' and if there isn't what he wants on the table or the sideboard, he goes down and helps himself. Or course I've got to do something about it—I was really ashamed of him today. Then there's Kitty," she went on hurriedly. "She's a genius—every that Kitty loses her head as she did last night and this morning. She has other faults, too, I suppose, but I shut my eyes to them, just as they all shut their eyes to my ignorance and arrogance and bitterness. I can't imagine life without them, now that I've found them, and I have a persistent feeling of having known them since the beginning of things. Sometimes I splendid. BY JANE EDDINGTON. Hamburg Cakes.

With the acquirement of that many ed old work, "The Encyclopaedia ctical Cookery," I have becom of ways minced beef has been manipu lated, yet in the volume which con tains the voluminous beef recipes there is only one recipe in which the minced beef is called Hamburg. It has the title "Fried Hamburg Steak served Russian Sauce." and reads Select two pounds of lean beef, remove all the fat, and pass it through adding a finely chopped shallot, two raw eggs, a good pinch of salt, one-half pinch of pepper, and one-third pinch of grated nutmeg. Mix well together and form the mass into six flat balls the size of small fillets. Roll these in bread crumbs, and fry them in a pan with two tablespoons of clarified butter for four minutes, turning them fre quently and keeping them underdone Serve with one-half pint of Russian

And then inconsiderately the volume, which has sauces, falls to give us its rticular interpretation of a Russian uce, but we can always use butter naltre d'hotel sauce with these

Note that the fat is trimmed off the at, and this makes a fat sauce all nore needed with them, while with lean meat alone the cakes can be more compact, and will not lose compactness when they com-e to cook, although always in have a heavy knife in one's hand to pat and punch them together if they show signs of breaking. In this old recipe the eggs and bread crumbs work to the same end. Of course, ragged cakes are unattractive, especially if we wish to have them resemble small ds, to be served on toast and with

Hamburg steak is hateful to some of us because it contains some sort of dirt. The piece of meat to be put into the chopper cannot be too immaculate. A little weathered end of meat can in the flavor for us, and no shallot, onion, nor "a third of a pinch of utmeg" can hide that off flavor. In n cooking Hamburg steaks, have ne fat in the pan and baste the

The V-shaped neck line, still faithfully preserved this autumn in both daytime and evening autumn in both daytime and evening costumes, is here followed by silver ribbon and the V encloses matching chiffon. These two details together with a flower of pink ostrich shading into silver tips are the only outside aids given to this frock.

As to the cut, this is given distinction chiefly by the sianting line of the bodice, a slant which, however, re-sumes its normal course in the back.

Work in Forest Preserve to Start Soon.

Trustees of the zoological gardens to be constructed in the forest preserve near Riverside yesterday put their final approval on the plans as represented to them in miniature.

The zoo will be the largest in the world, the trustees were shown from the tiny replica, and will eventually provide for 5,000 animals. This collection will far outstrip the New York zoo, which now boasts only 3,000 in

will consist of a mall, or fairway, two thousand feet long, with cages on Elmer Almost thousand feet long, with cages on each side. The animals will be grouped for exhibition along the open stretch by classification of species.

Work to Start Soon. The action of the trustees yesterday will permit work to start immediately. The first year's income of from \$600,000 to \$700,000 from the tax levy will be expended in landscape development the trustees decided. Artificial lakes valleys, hills, and underground sew

A considerable number of animal will be caged along the mall with the income from the second year's taxes By the third year, according to N. H. Clark, a member of the committee, the project should be well under way and uld offer a splendid exhibit of anilast evening to justify anything going

The park will be spread over 196 acres and will include 46 buildings. Mrs. Edith Rockefeller McCormick has donated eighty acres for the project. An additional income for the first year was made known yesterday when the county commissioners authorized Anton J. Cermak, president of the county ice \$25,000 for prepara tory work on the zoo.

Money to Be Repayed. The zoo society must, however, pay interest. Repayment is to be made by the society out of tax moneys collectments levied in 1926 under an act governing the financial proce dure in the building of zoological parks in the forest preserve districts. The miniature replica of the park was removed to Marshall Field's and

REFUSES RIENZI TAX CUT DUE TO LOSS BY DRY LAW

Washington, D. C., Sept. 27 .-- [Spe cial.]—The Rienzi company of Chicago has failed to establish the right to make deductions from gross income for losses due to prohibition under a decision handed down today by the board of tax appeals.

The company appealed from an additional income tax of \$14.097, assesse or the fiscal year ended Oct. 31, 1919. Its contention was that the commisdoner of internal revenue erred in refusing to allow the deductions of value of saloon and beer garden fix-tures and equipment, and of \$44,722.40, company in a tabloid presentation of good will, by the passage of the na-

ional prohibition act.

The board permitted a deduction for depreciation to the amount of one-twenty-fifth of the cost of the equipment, the saloon and beer garden having been leased in 1912 for a term of 25 years.

MARYLAND JUDGE **GRANTS DIVORCE TO SYMINGTON**

(Picture on back page.)
Belair, Md., Sept. 27.—(P)—Circuit
Court Judge Walter W. Preston tonight signed a decree granting Thomas H. Symington, millionaire clubman of New York and Maryland, an absolute divorce from Ida May Symington. Symington filed suit in Maryland with a similar suit pending in New York. Mrs. Symington, was accused of misconduct with Maurice Fatio New York architect, and Talbot W

Chambers, New York coal man.

Attorney General Thomas H. Robinson Symington's chief counsel, regarding the New York suit declared that "Mr. and Mrs. Symington no longer are man and wife and Mr. Symington is not legally responsible for alimony.

> BY ELMER DOUGLAS. I've half a notion to report that here was not enough doing in radio

in this column this morning. Maybe l will; maybe I won't-The evening really had a good start directly after the Chicago stations signed off at 7 o'clock, but the good work didn't keep up. Signal strength was strong and the tones were remarkably clear at first, but signal strength decreased and the tones became mushy and mushier as the eve-

ning progressed.
WSM, Nashville, came as clear as one need ask for at 7 o'clock. For interest, one had the choice of a fair dance orchestra, or, the opportunity of rehearing the familiar voice of WLS's popular announcer, George Hay. WJAX, Jacksonville, Fla., 7, was every whit as clear as WSM. William

Elliott (euphonious spelling) entertained nicely in popular songs. KDKA, Pittsburgh. The always enjoyable KDKA Little symphony came satisfactorily at 7:30, but at 8.30 the incoming tones were a terrible

bill of fare. There seemed to be an important speechmaking broadcast on the air from New York through WJZ at 9 o'clock, and heard at this receiving point through WGY, Schenectady, but the hearing being near the vanishing point, I don't know what it was about. Shortly after 9 o'clock an obviously meritorious baritone voice, accom-panied by an orchestra, was heard representing the loss of useful Seville." A little brainwork resolved this as being the WEAF Grand Opera this opera-a chain broadcast. Ready in five minutes -your most refreshing drink

A few minutes for the water to boil, three or less for the tea to steep-and your Japan Green Tea is ready, a delightful drink, restful and refreshing. An earthenware pot is best for the steeping; it preserves most of the natural flavor. Use a teaspoonful of the fragrant leaves for each cup, and pour the water over them exactly when it comes to a boil. Try this at luncheon, after a strenuous morning's housework. Drink slowly. Make every sip a separate, lingering pleasure. Then note how fresh and fit you feel all afternoon!

ROSEHILL MAUSOLEUM

Mausoleum.

Love's Offering Supreme

They paused at the blue curtained archway,

silently appreciative of the exquisite white marble

and bronze chapel of beautiful Rosehill

A look of peace passed over the widow's face.

"When first there came the shock of my sudden

loss I longed to render him one last service that

would truly express my overwhelming love.

Then my friend told me of magnificent Rosehill

"Here, within this lasting loveliness, I assure his

name and remains unending protection by those

two mighty funds-one, the strongest trust fund

known to man; the other, the Mausoleum Build-

ing Special Reserve Fund. Thus I have indeed

Even those with limited incomes now so honor

and cherish the names and remains of their

beloved dead. In the new addition, while space permits, single crypts may be had for as low as \$450; family rooms for \$6,500. All are assured

the same perpetual care accorded the most ex-

pensive. Inquiries, by mail or in person, will re-

ceive prompt and courteous attention without

thought of obligation.
